

NSHM Knowledge Campus, Durgapur,

Conferences / Workshops / FDPs Attend

- Presenting a full-length poster on *Pristine and TM decorated Holey graphene as potential carriers for cisplatin drug delivery: A first Principles Study* in 7th International Conference on Nanoscience and Nanotechnology (ICONN-2023) organized by SRM INSTITUTE OF SCIENCE AND TECHNOLOGY, Kattankulathur - 603 203, Tamil Nadu, India.
- Selected for poster presentation on *The binding affinity of pristine C_{36} fullerene towards anti-cancer drug chloromethane: Implications for drug delivery* in 66th DAE Solid State Physics Symposium at BIT, Mesra, Ranchi (Dec 2022).
- Attended a workshop on *Driving the development of bio-based polymers with molecular simulation* organized by Chemistry World Webinars (April, 2022).
- Participated *Quantum Computing: introduction to algorithms and implications using Qiskit* organized by IISER TIRUPATI. (May,2022).
- Online workshop on DNA BASED DRUG DESIGNING BY MOLECULAR DOCKING organized by INDIAN SCIENCE AND TECHNOLOGY FOUNDATION (April,2022).
- Presenting a poster on *A Quantum mechanical prediction of C_{24} fullerene as a DNA Nucleobase* in 65th DAE Solid State Physics Symposium organized by Bhabha Atomic Research Centre, Mumbai.
